

INVITATION

THE INVENTOR

"By the way, who do we name as inventors?"

If you handle invention disclosures or patent filings you have probably asked – or been asked – this question many times, maybe in a round-table discussion with researchers and project managers. However, is there always a straightforward answer to this question? If not, how does one go about determining inventorship? And what might the consequences of an incorrect designation be?

Against this background, we invite you to a seminar where we aim to shed some light on inventorship and its link to ownership.

Speakers

Jens H. Schovsbo, LL.D., Ph.D, Professor at the University of Copenhagen

Logan Buck, Partner at Womble Bond Dickinson LLP

Peter Koefoed, Inspicos P/S

Anna Löqvist, Inspicos P/S

Agenda

What is inventorship, and does it matter?

Rights and duties of the inventor – a Danish perspective

The U.S. – what you need to know

Inventorship in practice

Refreshments and a light meal will be served after the seminar.
